## **Second Language Acquisition Article and Dicussion Summaries**

The Article and Discussion Summaries comprise short summaries (around two pages; 10k max) of one of the articles we read along with significant points and/or questions we posed about it in the class discussion. You post each of your two summaries to the class listserv for all to see. Your summaries should be posted to the listserv no later than two or three days after the day on which the relevant article is discussed in class.

The assignments below were set up on a principally alphabetical basis. It is possible to switch to a different article (and different day), but such a switch *must* be arranged well in advance with me. In any event, no more than two persons may post summaries of the same article/discussion content.
